GERALD M PARK  
8790 BLUE JAY LANE  
SALT LAKE CITY UT 84121

April 25, 1995

Dear Mr. Park:

On April 10, 1995, a field compliance inspection was conducted for your notice, UTU-070706, which includes unpatented mining claims UMC 143418-9, located in Section 18, T. 14 S., R. 2 W. This notice was accepted by our office on August 25, 1993, under the 43 CFR 3809 regulations for surface management. These regulations also require that any surface disturbance which has occurred after their implementation on November 26, 1980, must be reclaimed. Based on our inspection, we have determined that no surface disturbance has taken place at the site since that date, so no reclamation is required, and we are closing the case file.

If you restart any mining related activity that causes surface disturbance, then you must re-notify this office at least 15 days prior to the start up of your operations.

Thank you for submitting your notice and for your support in proper management of public lands.

Sincerely,

Roddy Cox  
Geologist
